SUMMARY

Full-Stack Software Engineer with expertise in Java/Spring Boot and frontend development (Angular, TypeScript). Proven ability to build end-to-end solutions for FinTech applications, from scalable backend microservices to responsive UIs. Combines strong OOP, SOLID principles, and SQL optimization with polished frontend skills for seamless system integration.

SKILLS

Backend : **Java :** Spring Boot, Spring Framework, JUnit, Microservices
SQL : MySQL, Oracle DB
OOP & Design Principles : SOLID, Design Patterns
APIs & Tools : RESTful APIs, Git, IntelliJ

Frontend : Angular, TypeScript, HTML5/CSS3, Bootstrap, Vue,js

Languages : English (Intermediate), Sinhala (Mother tongue)

PROFESSIONAL EXPERIENCE

Central Finance PLC
02/2025 - Present

Associate Software Engineer (FinTech)

- Develop and maintain financial software solutions using Angular (Frontend) and Spring Boot (Backend), implementing secure RESTful APIs for high-volume transaction processing with microservices architecture, JWT-based authentication, and role-based access control (RBAC) to protect sensitive financial data
- Optimize Oracle DB performance using stored procedures, triggers, functions, and sequences for complex financial transactions including double-entry accounting, payment processing, refund workflows, and End-of-Day (EOD) automation, while collaborating with cross-functional teams to enhance data integrity, system reliability, and mentor junior developers on backend best practices
- Support UAT and QA testing processes to ensure software quality and compliance with business requirements

NAVITSA Technologies
06/2024 - 02/2025

Intern Software Engineer

Ledger Chimp - Financial Management Platform

- Developed scalable APIs and microservices using Java/Spring Boot, handling high-volume transactions with optimized performance.
- Designed RESTful APIs following SOLID principles, ensuring maintainability and extensibility.
- Optimized Azure SQL Server and MySQL databases, reducing query latency through indexing and stored procedures.
- Implemented unit testing with JUnit, achieving 80% test coverage and improving code reliability.

MyDent.lk - Web Application for Booking Dental Appointments

- Developed Spring Boot REST APIs for appointment scheduling, implementing JWT authentication and MySQL database integration
- Built Angular frontend with TypeScript and Bootstrap, creating responsive interfaces for seamless booking experiences
- Designed efficient API contracts between backend and frontend, optimizing data payloads and reducing latency

EDUCATION

University of Ruhuna, Sri Lanka
2020 - 2024

BICT (Hons) - Bachelor of Information & Communication Technology
GPA: 3.20/4.00

Lumbini College, Colombo 05
2018

GCE (A/L) Examination
Technology Stream (SFT - B, ET - B, ICT - C)
Z-Score 1.487

KEY PROJECTS

University of Ruhuna
2023 (undergraduate)

Automated Theorem Proving for Congruence of Triangle

Technologies: Google Cloud Vision API, Roboflow, OpenCV, Regular Expression, Custom Algorithms

- Built a web-based tool that extracts geometric data from images using Google Cloud Vision API and Roboflow.
- Applied OpenCV for image processing to identify shapes and Regular Expression for extracting and analyzing text from the images.
- Suggested the correct theorem based on extracted data, streamlining the verification process and enhancing overall accuracy.

Web-based Inventory Management System

KBChanukaJ/Inventory-Management

Technologies: Spring Boot, Angular, MySQL

- Built a comprehensive system for managing inventory, improving tracking accuracy and efficiency.
- Integrated real-time data updates, streamlining inventory checks and minimizing stockouts.

Hostel Complaint Management System

KBChanukaJ/Hostal_Management

Technologies: Spring Boot, Angular, Advanced Database Technologies

- Developed a complaint tracking system that improved response times and issue resolution.
- Implemented an automated notification system for better communication and faster resolution.

CERTIFICATIONS & ACHIEVEMENTS

University of Moratuwa
2024

Python for Beginners

CISCO Network Academy
2022

Introduction to Cybersecurity

Faculty of Science, University of Ruhuna
Participant | 2024

INSURGEX 1.0

EXTRACURRICULAR ACTIVITIES

Junior Treasurer ICT Society, University of Ruhuna | 2023–2024

Committee Member ICT Society, University of Ruhuna | 2022–2023

Team Member Faculty Badminton team, University of Ruhuna | 2022-2024
